

AWARD

Scaling autonomous logistics

@award_h2020

AWARD-H2020

/award-h20202.eu

AWARD will deploy safe and efficient connected and automated heavy-duty vehicles in real-life logistics operations, whatever the weather conditions are

Real-life logistics operations

Forklift

Autonomous loading and unloading forklift operations

Hub-to-hub

Autonomous logistics shuttle service on public road

Airport

Autonomous ground support equipment

Port

Automated transfer operations and ship loading

Key results

Definition of end-user's specifications and requirements

Safe and scalable ADS validated for harsh weather conditions

Zero-Emission Driverless HDVs certified for extended ODDs

Interoperable fleet management and supervision system that optimizes logistics

Demonstrations of automated HDV performing 24/7 real logistics operations

Policy recommendations regarding the regulatory framework

Our team

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101006817.
