Important Notes

Registration

Please bring a valid ID with you to register at the entrance to the research site
Please also sign the participants list

Photographs

Photographs will be taken and video recordings made during this event, which will be used for documentation and post-reporting purposes as well for promoting subsequent events (e.g. website, print media, photo gallery, social networks).

These photographs and recordings are connected with the visual representation of the persons present. The choice of persons is purely random.

By entering the premises/venue of the event the person present automatically consents to publication in the above-mentioned manner free of charge, without the express declaration of said person to that effect being required.

Should you not wish to give your consent, please inform the photographer of such at the event.
